

## REKOOP MORE WISDOM

We are targeting a 30% reduction in the time taken to record all entries and we're confident of achieving that

### CLIENT

Harper Mcleod LLP

### LOCATION

Four offices across Scotland - Glasgow, Edinburgh, Inverness, Thurso

### USERS

100+

### SOLUTION

Desktop, Digital Footprint, Mobile for BlackBerry

### INTEGRATION

Pilgrim Lawsoft practice management system

### RATIONALE

To support the firm's commitment to lean, cost-efficient and innovative working and achieve twin gains: reduced administrative effort and improved accuracy of time recorded

### THEY SAY

Rekoop immediately impressed through its ease of integration and implementation, and its chameleon-like ability to suit a wide range of user behaviours and preferences

### WE SAY

We've worked hard to engineer Rekoop in such a way that it supports fee earners without them being overly aware that they are in a discrete application; we want it to be more natural and familiar to them than Outlook or Word, because once you have that, you have succeeding in embedding quick, effortless, highly efficient time capture across the firm
